

Reimagine Literacy Instruction.

Help students own their learning.

Encourage student agency on a daily basis through activities and resources in the *Wonders* platform.

- Students set goals and choose the strategies they want to use to reach them.
- Center Activity Cards give students a choice of various, multimodal activities.
- The *Wonders* Guides, a team of diverse characters, offer help and support.
- Daily check-ins encourage self-monitoring towards learning goals.

Build knowledge through literature.

Incorporate authentic literature directly into your instruction with *Wonders*. This powerful platform...

- Invites students to explore the world through diverse perspectives.
- Provides a 50/50 balance between literary and informational text.
- Includes both classic and contemporary works in various genres.
- Emphasizes social emotional learning and student empowerment.

Wonders® is a powerful tool designed to deliver literacy instruction to all students, but students' needs are changing, and a single teacher can only do so much. That's why we need to reimagine our approach. When you complement *Wonders* with *Achieve3000 Literacy*, you're using proven digital technology to scale adaptive, personalized learning and real-time data to inform instructional decisions.

Expand their world through literacy.

Wonders is inspired by the belief that every student can succeed. This evidence-based ELA program for grades K-5 empowers students to take a more active role in their own learning and offers educators the ability to adapt instruction as students grow.

“ I want my students to be able to pick up a book and read independently, and that's what *Wonders* allows them to do.

*Special Education Teacher
Woodholme Elementary, MD*

Develop students' writing skills.

Reading and writing go hand in hand, reinforcing key literacy skills. Students engaged with *Wonders*...

- Write in response to what they've read.
- Write and cite using text evidence.
- Write about what they've learned.
- Write with guidance from conversations about texts.

WonderWorks works *Wonders*.

WonderWorks® drives achievement by connecting intervention strategies with *Wonders*' core content. *WonderWorks*...

- Helps students track their own progress and learning.
- Engages learners with multimodal learning opportunities.
- Builds English learners' language and literacy skills.
- Supports students' oral language development.

Achieve3000 Literacy is a differentiated learning solution for grades 2-12 that dramatically accelerates literacy growth for students of all ages, races, ethnicities, and reading levels. It is proven to double and even triple expected Lexile gains in a single school year when used regularly.

“**When I look at *Achieve3000 Literacy*, I see this amazing program that teaches kids to believe in themselves.”**

***ELA Curriculum Specialist
Sweetwater Union School District, CA***

An adaptive, personalized learning tool

Achieve3000 Literacy meets students at their current reading level and takes them where they need to go. It uses a proprietary process that requires little or no effort from the teacher. Here's how it works:

- The start-of-year LevelSet™ assessment establishes each student's reading level.
- Students are assigned engaging, culturally relevant fiction, nonfiction, and poetry.
- The assigned content is differentiated to 12 levels in English and eight in Spanish.
- Students' Lexile levels are adjusted in real time through embedded assessments.

A research-supported approach

Two decades of research, including a gold standard study with a rating of Strong from Evidence for ESSA, have shown *Achieve3000 Literacy* can deliver up to 3X expected Lexile gains. In each lesson, students...

- Activate prior knowledge.
- Express and defend opinions informally.
- Complete an activity to check comprehension.
- Practice close reading and cite evidence.
- Produce academic language in writing.

For more information, please call 1-800-838-8771.

Working smarter and better together

Achieve3000 Literacy's dynamic features complement *Wonders* instruction perfectly. Teachers can use it during station rotation, independent worktime, or as homework. It gives students access to:

- Powerful learning tools and resources that are aligned to *Wonders* themes, skills, and strategies.
- A growing virtual library with thousands of engaging, culturally relevant fiction and nonfiction selections that are ideal for independent reading.
- NGSS-aligned Science and NCSS-aligned Social Studies articles, media, and activities that enrich learning and support cross-curricular instruction.

Student data at your fingertips

The Data Center offers instant access to critical data, so teachers can track student progress in real time. With it they can...

- Quickly identify students who need added support.
- Drill down on performance data for individual students.
- Allow the data to inform their instructional decisions.
