Mc Graw Hill

Achieve3000 Literacy™   Actively Learn™

Two Great Digital Solutions from McGraw Hill: Achieve3000 Literacy and Actively Learn

If you're looking for a digital solution that increases equity, promotes engagement, and gives students greater voice and choice, McGraw Hill has two amazing options for you: **Achieve3000 Literacy™** and **Actively Learn™**. Achieve3000 Literacy is a personalized, adaptive acceleration tool for grades 2-12 that has been proven to double and even triple students' reading growth in a single school year. Actively Learn is a curriculum platform for grades 3-12 that deepens learning in science, social studies, and ELA by offering students access to a wide variety of standards aligned content.
