

# Actively Learn™

Rich, Standards-Aligned Science Content for Elementary, Middle, and High School

GRADES 3-12

## Drive Deeper Learning in Science with This Award-Winning Digital Solution.

**Actively Learn Science** textbook sections, simulations, high-interest articles, and videos cover a wide range of core topics in 3-12 integrated science, chemistry, biology, and physics.

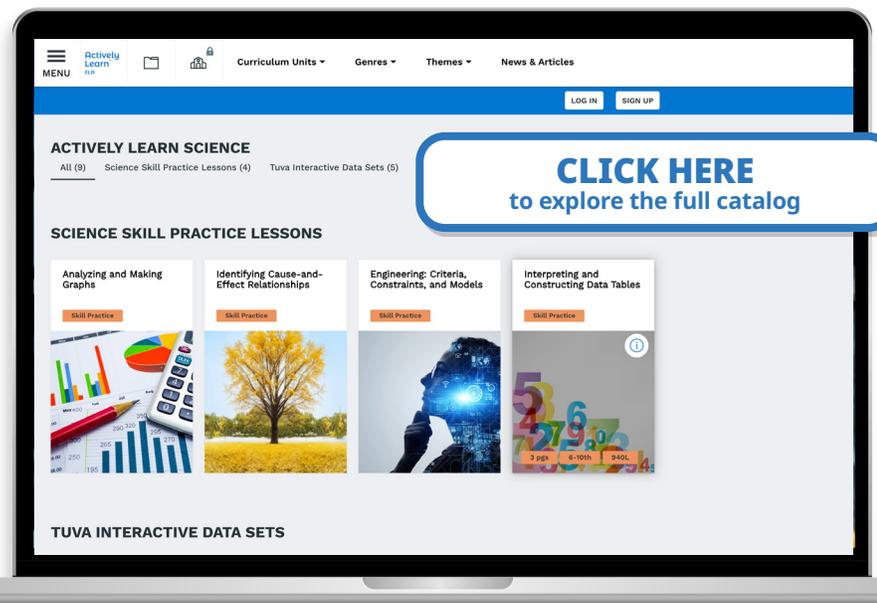

- Lessons and assessments that support teaching within the C3 Framework
- Aligned to NGSS and state science standards
- Approximately 1500 textbook sections on science topics
- 700 news and high-interest articles and over 120 videos
- More than 100 inquiry-driven skill practice, simulation, and data analysis assignments

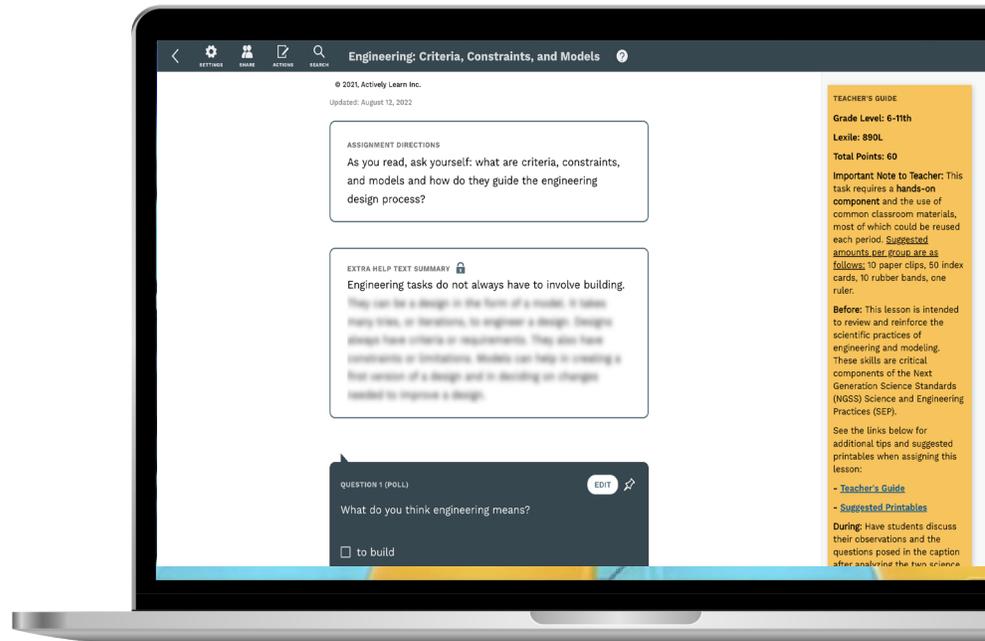

I really love the resources on Actively Learn. It combines current events with science content to provide a more authentic curriculum [platform]... that brings textbooks to the 21st century in an engaging way."

**Diana Stratton,**  
*Middle School Science Teacher*

**Actively Learn video assignments** bring science to life and include embedded questions to engage students with phenomena.

This NGSS-aligned digital solution is a robust, research-based instructional tool that's designed to promote effective learning in any type of environment.

### Comprehensive, Rigorous Resources

A versatile tool for classroom, hybrid, and remote instruction, *Actively Learn* is designed to maximize student engagement with embedded interactive tools and boundless content.

### Collaboration and Support

Scaffolds such as guiding questions, text-to-speech, translation into 100+ languages, shared annotations, in-line peer discussion, and real-time teacher feedback make *Actively Learn* the ideal learning platform for students of all ages and ability levels.

*In addition to science, Actively Learn offers standards-aligned digital solutions for social studies and ELA.*

For more information, please call us at 800-838-8771 or visit [activelylearn.com](https://www.activelylearn.com)

### Flexible, Engaging and Easy to Use

In addition to *Actively Learn's* ready-to-go content, teachers can upload their own texts, slides, PDFs, and videos. They can also share digital resources and monitor student progress across standards and content areas with real-time performance data.

- Access on any device
- Integrate seamlessly with Google Classroom, Canvas, Clever, and Schoology
- Easily deliver synchronous and asynchronous instruction
- Customize any assignment and upload your own
