

Achieve³⁰⁰⁰ Literacy™

Accelerate the Path to Literacy Achievement

Achieve3000 Literacy™ is an adaptive, digital platform proven to double and even triple expected learning gains for students in Grades 2–12. Differentiated content, vocabulary, and learning scaffolds ensure equitable access—driving literacy growth and positive outcomes for all learners.

Why Choose *Achieve3000 Literacy*?

Proven Lexile Acceleration

Don't just take our word for it! *Achieve3000 Literacy* has over 10 years of efficacy studies that show dramatic growth across across grade levels and demographics, including a gold-standard study with a **Strong** Evidence for ESSA rating in Grades 6–12.

Teacher Ease of Use

Our powerful data reporting and flexible implementation model lets you teach your way while supporting comprehension and literacy skills in the classroom and beyond.

Content for Every Learner

From fiction to nonfiction and English to Spanish, our content builds knowledge in ELA, science, and social studies, differentiating to each learner's precise reading level with a clear path to literacy acceleration.

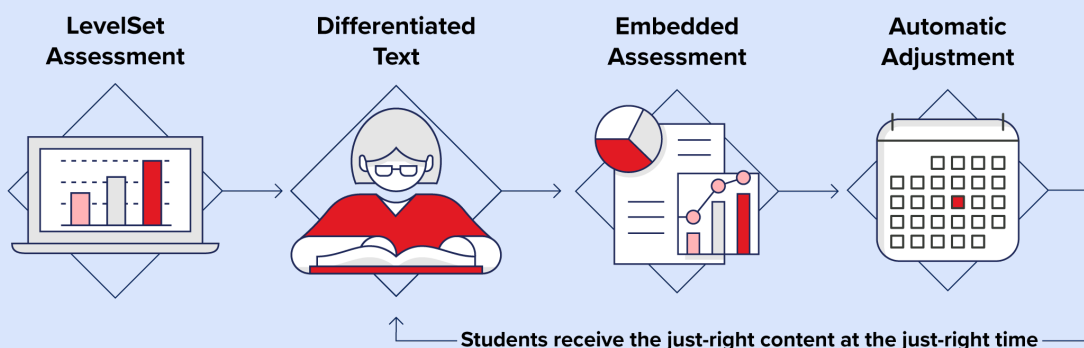

College and Career Readiness

With a focus on real-world applications, *Achieve3000 Literacy* helps every student understand the power of literacy in daily life with its robust Career Center.

A Dynamic Learning Tool

Using data from multiple-choice activities, *Achieve3000 Literacy* automatically adjusts text complexity for students as their reading skills improve, helping them progress steadily toward college and career readiness targets for their grade.

"I've seen growth across the board with *Achieve3000 Literacy*, from our most struggling to our most advanced readers. We've seen some kids reaching 150% to 250% growth, which is incredible."

—Adrianna Ramirez

Sixth Grade Teacher at Liverpool School District, New York

An Evidence-Based, Research-Supported Solution

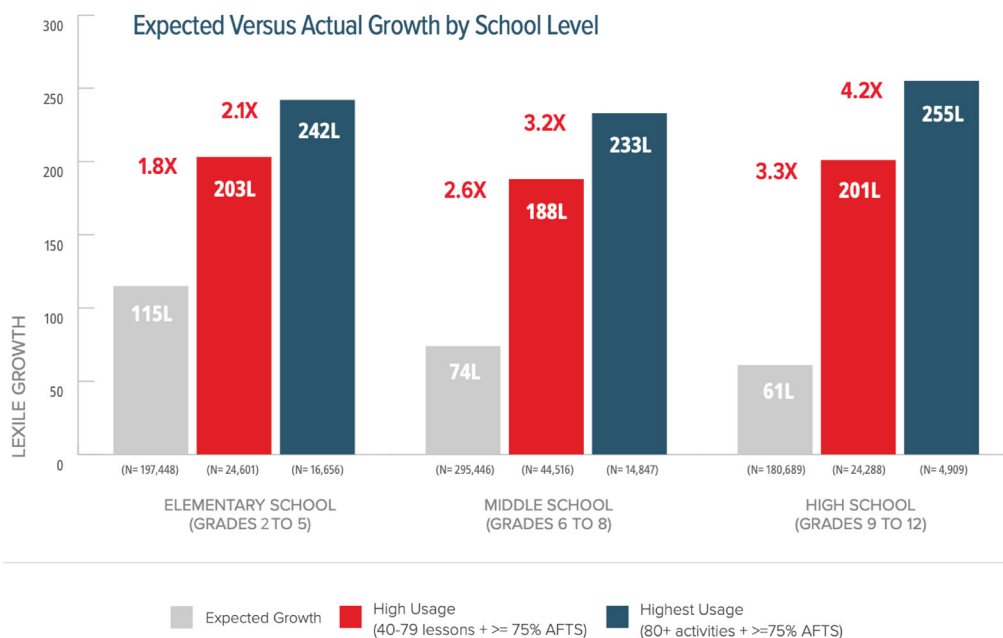

Each *Achieve3000 Literacy*™ lesson follows our proven literacy routine, promoting student efficacy by providing opportunities to:

- Activate prior knowledge and thinking and build background knowledge.
- Express and defend opinions through discussion and writing.
- Access the Career Center to support goal setting and progress monitoring.
- Exercise choice by self-selecting articles at differentiated reading levels.
- Track progress in the student dashboard.

WordStudio

Designed for students who may need additional instruction and practice with foundational literacy skills, WordStudio offers a unique lesson collection for Grades 2–5 and 6–12 featuring:

- Scope and sequence to guide lesson progression.
- Explicit instructional videos.
- Guided and independent practice.
- Robust teacher materials.

On average, students across all grade levels completing one or more lessons per week with an average first-try score of 75% or higher experienced accelerated growth.

Flexible Implementation for Success

Boost reading skills and comprehension in only **two steps!** We've distilled our original five-step lesson plan down to a simple two-parter—so you can choose which plan works best with your schedule without sacrificing quality. Our two-step “Read and Respond” routine helps you save valuable instructional time, focus on the essentials, and increase engagement with its streamlined approach.
